**FOR CULTURAL COMPETENCE - VDOE**

Population dynamics is the branch of life sciences that studies the size and age composition of populations as dynamical systems, and the biological and environmental processes driving them (such as birth and death rates, and by immigration and emigration).

**Population dynamics - Wikipedia**

Community development is a process where community members come together to take collective action and generate solutions to common problems. Community wellbeing (economic, social, environmental and cultural) often evolves from this type of collective action being taken at a grassroots level.

**What is Community Development? | PeerNetBC**

The United Nations defines community development as "a process where community members come together to take collective action and generate solutions to common problems."
