About the Program Students of the Electrical Engineering Technician program learn a full range of electrical skills enabling them to work in a wide variety of electrical engineering areas including power systems and automation control systems.

### **Electrical Engineering Technician Program & Courses**

About the Program The three-year Electrical Engineering Technology program has been designed to provide students with both theoretical and practical experience, enabling them to work in a wide variety of electrical engineering areas including power systems and process control.

### **Electrical Engineering Technology Program & Courses**

Stand Out as an Innovative Power Engineer. The Master of Science: Electrical Engineering program will prepare you for leading edge positions in industry in the areas of electric power, power electronics, motor drives, and electric machines.

### **Electrical Engineering: Power Engineering**

Course details. You study eight modules covering the needs of local and national industries and business. The HNC provides a sound understanding of all key principles and includes core modules in Electrical Principles, Analytical Methods, Engineering Science and a project.

### **Electrical and Electronic Engineering, HNC | Undergraduate**

Program Title "Electrical Engineering Technology. Credential Earned Ontario College Advanced Diploma. Delivery Full Time. Program Length 6 Semesters

### **Electrical Engineering Technology | Northern College**

What Electrical and Electronics Engineers Do. Electrical engineers design, develop, test, and supervise the manufacturing of electrical equipment, such as electric motors, radar and navigation systems, communications systems, and power generation equipment.

### **Electrical and Electronics Engineers : Occupational**

Measurement in Electronic and Electrical Engineering 4 Improvements in measurement can have far-reaching consequences. For example, aero engines are built to a very high accuracy and require about
