I had the same problem on printing a PDF file. There's a nuget package called Spire.Pdf that's very simple to use. The free version has a limit of 10 pages although, however, in my case it was the best solution once I don't want to depend on Adobe Reader and I don't want to install any other components.

So many factors are already far past the breaking point, major links in the chain of our current reality are likely to fall soon. Though the collapse of the paradigm we have formerly known is inevitable and near, the collective efforts of the already awakened could still positively alter the composition of what is unfolding.
