Tests are called "high-stakes" when they used to make major decisions about a student, such as high school graduation or grade promotion. To be high stakes, a test has to be very important in the decision process or be able to override other information (for example, a student does not graduate if s/he does not pass the test regardless of how ...

On average we receive 14 calls a day about animals affected by litter and these types of calls spike particularly high in the summer months. Even so, as pet owners go directly to vets, and many injured wild animals are never found, itâ€™s estimated that the actual figure of animals injured by litter is much higher than we currently know.
