GFI Languard is an extensible integrated software suite that can provide the tester with a comprehensive overview of the security status for an entire network or just an individual device.

GFI Languard â€” VulnerabilityAssessment.co.uk

In informal logic and philosophy, an argument map or argument diagram is a visual representation of the structure of an argument. An argument map typically includes the key components of the argument, traditionally called the conclusion and the premises, also called contention and reasons. Argument maps can also show co-premises, objections, ...

Argument map - Wikipedia

A mind map is a diagram used to visually organize information. A mind map is hierarchical and shows relationships among pieces of the whole. It is often created around a single concept, drawn as an image in the center of a blank page, to which associated representations of ideas such as images, words and parts of words are added.
